

WHOOPING, COUGH, PERTUSSIS:

An acute, infectious disease characterized by a catarrhal stage, followed by a peculiar paroxysmal cough, ending in a whooping inspiration.

Whooping cough = All-c.—Hoarseness and whooping cough inspiring cold air. Tickling in larynx. Sensation as if larynx, split or torn.

Whooping cough = Carb-v., Cupr., Dros., Pertussin., Puls., Bell., Ip., Meph.

Whooping cough = Dros 12. It is an infectious cough, coming in paroxysms and ending in vomiting.

Whooping cough = Napht.—for whooping cough. Dros follows immediately.

Whooping Cough = Napht—Found it more useful in whooping cough than any other remedy. **Dr. Louis Hartman.** The spasmodic action and the cyanosis of the drug are good indications here, though it is not necessary to wait till the child is blue before prescribing (**Dros**) follows immediately.

Whooping cough = Nat-m.—for whooping cough with flow of tears.

Whooping Cough = Nat-m.—In whooping cough flow of tears with cough is the key-note for. **Dr. Burnett.**

Whooping cough = Per.—Is a very valuable and good protection against whooping cough. Whooping cough immunization, by allopathic methods, for young infants, is of doubtful value and often productive of illness and weakness, lasting for some time, interfering with growth and development, **Carb-v., Cupr-m.** In potency are the big three selected according to the type epidemic and

symptoms present in the individual cases. These medicines afford splendid protection as well as antidote the bad effects from the whooping cough vaccine.

Whooping cough = Puls.—Is said to prevent whooping cough. And take in minute doses a day every evening during the season of exposure has proved a prophylactic against the congestion of whooping cough.

Whooping cough = Sep.—for whooping cough that drags on internally.

CONCOMITANT SYMPTOMS & REMEDIES :-

WHOOPING:[BACK] :

Weak, cough, in, whooping:

Verat.

WHOOPING :[BRAIN] :

Stitches, coughing, when, coughing, in pertussis:

Anac.

WHOOPING :[RESPIRATION] :

Whistling, whooping, cough, in:

Brom., Carb-v., Cupr., Hep., Spong., Samb.

WHOOPING :[CHEST] :

Bleeding, from, lungs, and, chest, whooping cough in:

Con., Ip.

Constriction, cough, during, whooping, during:

Caust., Mur-ac., Spong.

WHOOPING:[CHILDREN] :

Boys, scrofulous, whooping, cough, after vaccination:

Thuj.

Girls, nervous, whooping, cough :

Viol-o.

WHOOPING:[CLINICAL] :

Emaciation, body, cough, cough, with, whooping:

Cor-r., Phel.

Vaccinations, ailments, after, cough, after whooping cough, immediately, in scrofulous boys:

Thuj.

Whooping, cough, pertussis:
